GENERAL MANAGER'S MESSAGE

As we are more than halfway through our Winter, I know I am looking forward to the onset of Spring. With that comes our Semi-Annual Clean-off day which will be March 1, 2012. If you have anything at all on any graves, please remove it prior to March 1 or it will be removed by our maintenance staff. Items that can be left on include the metal "shepherd's hook" (although everything must be removed from them), the wooden upright crosses, and those solar lights. Other than that the other items will be removed and will not be retrievable. Thank you for your cooperation.

We are very excited about some new programs moving forward including some new artificial flower options, new Lot purchase options, and hopefully the beginning of some of our much needed road repairs. We will also be working on the continuation of enhancing our beautiful Urn Garden including our Memorial patio with the engraveable bricks and personal cremation options.

Most of you probably don't know that we had a change at Riverside this past Summer. The President of our Board of Trustees decided to resign as President. Mr. Don Kuschel had been our President for 10 years and a member of our Board for 40 years! He is continuing on as a member of the Board. Our new President has a familiar last name. He is Mr. Scott W. Halley and the son of our former General Manager William R. Halley. He is the third generation of Halleys to be actively involved in the governance of Riverside. His grandfather, Heber Halley was the Clerk here for 40 years and we know that his father William was the General Manager here for about 40 years and remains as a member of the Board and consultant to this date. We sincerely want to thank Mr. Kuschel for all his years of dedicated service and leadership to Riverside, helping make it

RIVERSIDE CEMETERY FOUNDATION

As you may know, we have a fund within our 501(c) 3 Foundation designated for the repair of some of our roadways. We have been asking that anyone who wanted to make a tax-deductible donation to this project to please do so and the response has been good so far. We have about 1/3 of the funds needed to accomplish those ear-marked repairs. As the donations continue to be received we should be able to start this project at some point this year. It will be very exciting to see these much-needed repairs come to fruition. If you are desirous of helping out this project, your generous donations will be greatly appreciated.

Contributions payable to the Riverside Cemetery Foundation should be sent to the office address. All gifts will be appropriately receipted and gratefully acknowledged in our Newsletter.

ANNUAL EASTER SERVICE

Well, we are going to do it again - another sunrise Easter service! Easter this year is on Sunday, April 8 and we will continue with having our sunrise service at 6:30am. The non-denominational service will be held in our historic William R. Halley Chapel and, of course, is open to all. We hope that you will plan on attending.

RIVERSIDE STAFF
